Interviewing Principal Cheng

By Lui Hon Ying, Angel (5A) and Yeung Hoi Suet, Tina (5E)

Q1: Principal Cheng, would you like to share some of your successful learning experiences with us?

Principal: I think the English learning experience is quite inspiring for me because when I was a secondary 1 student, I was in a very famous boarding school in Hong Kong. The students over there were very smart and their English ability was much higher than mine. So in the first year, I found I was left far behind them. But I really wanted to enter the Chinese University in Hong Kong. So learning English was the most important part of my school life. I tried to use a lot of different ways to improve my English. For example, when I was in form 2, I tried to take part in some solo speech competitions. And I found a foreigner and English teachers to help me. Every night, I spent more than one hour practising my English like reading English books and doing some comprehension exercises to learn more vocabulary. Throughout the whole 5 years, learning English was the most crucial thing for me. Because I'm a Chinese, I had to grab more opportunities to learn English.

Q2: Was there any hard time in your learning experience?

Principal: Yes, of course. For example, I love English but as I said that I'm a Chinese, so I didn't have a lot of opportunities to be exposed to English in my life, and also I was in the dormitory, which meant I couldn't go out to see the world of English. In those years, the English standard of the society was not that high. Nowadays I can use the Internet to communicate, but at that time I could just listen to the radio because in the dormitory we did not have TV. So I think the hard time is that there were not enough resources, not enough time and also not enough chance to encounter English.

Q3: Can you share some tips or some interesting ways for our students to learn a language?

Principal: I remember that 10 years ago, I was already a teacher. When I tried to learn Putonghua, I spent 4 years. Some poor experience or some jokes happened when I spoke Putonghua in mainland China, so I decided to learn mandarin by immersion. First, I took part in two examinations to force myself to learn and find some very good teachers, for example, my Putonghua teacher was a broadcaster in Beijing. She speaks Putonghua so well. Moreover, when I drove every day, I listened to the Putonghua news. So I think the tip to learn a language - you should try to immerse yourself in the environment of learning language activities. Also, I tried to type 'pinyin' during that period.

Q4: What is the best way for students to improve their English?

Principal: first, I think, it is to learn from errors. Even now, I still find that I make lots of grammar mistakes when speaking, but that's not a problem because the communication is the most important part. So even if I have a lot of errors, I will try to be aware of that and try to learn from them. Second, learn from others. Some students learn English by asking their classmates how to learn English. The last one is try to work hard. I remember that when I was in secondary 5, I finished plenty of English exercises from 5 books. After doing the exercises, I would pick up some vocabulary items which I didn't know and record them in my notes to see if I could use them.

Q5: What do you think of our schoolmates?

Principal: Full of love and teachable. I think all Wing Lung students are nice and love our environment. We have a certain amount of talent to learn better, but do not have enough confidence. We also do not have a strong passion to learn more. So I think I need to set an example, try to be more passionate in my learning.

Q6: How to create a good attitude towards learning?

Principal: First of all, students should have a target in their learning.

For example, getting a place in the university or limiting yourself to learn something in a period of time. For me, I just limited myself to learning Putonghua in 4 years with a lot of practice. Next, students should have some tactics. I have learned ice skating before. I spent two times every week, every time one hour. Just keep practising repeatedly. And the last is passion. It is important for students to keep their passion in learning.

Q7: How to reduce the stress of studying?

Principal: Since I wanted to enter the university when I was in secondary school, I would spend some time relaxing. For example, I like singing. When I was in the dormitory, I would sing very loudly, even others could hear. Also, I like jogging and listening to music. Therefore, I just brought a big speaker to enjoy the music and learned English from listening to lyrics. Moreover, when I had a very stressful situation, I would try to throw all the work away and be alone to calm myself down. It is because constantly forcing yourself cannot help you. I would go to to watch my favorite drama or go jogging, just to relax myself in my own way.

Q8: How did you manage your learning schedule?

Principal: I learned time management when I was very young. For example, when I was in secondary school, I would write down all the things I had to do in a tight schedule. I would set a target every week or every two weeks. When I completed one of the targets, I would reward myself in a logical way such as sticking a sticker on the schedule book. Nowadays, I will use the google calendar. Since I have lots of work to do, I will write or type my schedule as detailed as possible. Even the time I start jogging and the time I need to go home. In addition, I will use color markers to classify my work. For example, the things that I highlight in red color are the tasks that I must do. And the pink or purple one is the events of my church or family. So it is useful for students to plan in advance when they are going to have a schedule. Because I am a principal now, if I do not plan my work well, I cannot achieve any goals.

Q9: Do you think that a place in the university is the only way to be successful?

Principal: Of course not. We can see that there are a lot of successful people who have not been in university. The most important thing is what you think of success. For me, working out a meaningful life is a success. For students, if they find their target, like being a cook or a fashion designer, it is not necessary for them to enter a university. Try to realize their dream is already successful. Most students think that to enter a university reflects a successful life. However, if students just waste their time in university, it is not a success. University education is just the quickest way to be a little bit more successful.

Q10: As a new principal, what is your expectation in the future years?

Principal: We have a new slogan this year. The goals are trying to nurture the student's life and helping them to become valuable people. For me, I hope I can be more familiar with the work of a principal and try to know more about my students. In the coming two years, I hope I can enter more classrooms to enjoy the school life with students. I also hope that my students can embrace learning and try to learn more. I have also planned to teach as well; I hope I can handle the work of the principal and the work of a teacher. However, it is just planning because maybe I must have a lot of challenges to face. Anyway, I always love sharing in the classroom with my students.

20th Anniversary

Jack's comment

This year is the 20th Anniversary of Wing Lung. I am so glad that I can be one of the students to go through this special big event. The teacher prepared a lot of celebration, the thanksgiving worship, Round-the-Campus Race, Dodge-ball Competition, poster design competition etc. And the students in Wing Lung also enjoyed this big event of their school life. Finally, I am so happy that I can become one of the members of this Wing Lung family!

Dennis' comment

The 20th Anniversary of Wing Lung! This is a good chance for us to have a better understanding of our school. I can still remember how hilarious it was! All students were enjoying the celebration activities such as the worship, Round-the Campus Race, Dodge-ball Competition etc. All the events were fascinating. They have all become good memories that I will not forget. Hope you enjoy the anniversary too!

Dodge-ball Competition

By Chui Tsz Hei, Jack (3C) and Fung Yin Chun, Dennis (3C)

There are many activities for us to celebrate the Wing Lung's 20th Anniversary. We think the most exciting, interesting activity is the Dodge-ball Competition. The preliminary of the competition was held on 2nd March, and the final was held on 4th March in our basketball court. All students could join this event.

On 4th March, after Round-the-Campus Race, two student teams played with teacher teams. The competition was intense, and all the students enjoyed watching the two matches, junior and senior. The teachers also showed a lot of passion for the event. They really enjoyed themselves while they were playing! Also, they wore red shirts to show their team spirit. Finally, the student teams won the competition. You see! The winners were very joyful about the result!

We interviewed one of the winners. The girl said, 'I am very happy. We've practised for the competition for a long time. We are so excited to be the champion.' So, we can learn that practice makes perfect!

Service

By Chan Yuen Ying, Liffy (3C)

3rd May 2016 is our school's 20th Anniversary. We celebrated it together at school that day. At first, all of us joined the worship at the school hall. In the worship, our school choir performed a song, "Soar like an eagle." It was a fantastic performance. Well done, our boys and girls!

After that, our school Chinese Dance Group performed a Tibetan Dance, The Wind of Tanggula. They were so energetic and cheerful. Everybody in the hall appreciated the wonderful dance.

And the last thing we did in the hall was to take a big photo of all of us, nearly one thousand people there, a big challenge for sure. In one of the shots, we all made a "V" sign together; the scene was definitely unforgettable in the history of Wing Lung!

And after the worship, our Musical Journey performed several songs at the school playground. Many guests gathered to watch them. The MJ guys were so attractive as usual!

Liffy's comment

I am so honoured to be a witness of the 20th anniversary, a day full of joy and laughers.

I enjoy watching the whole-hearted performances. And I think the most exciting part is the dodge-ball competition part, teachers vs students, so entertaining and hilarious!

Round-the-Campus Race

By Poon Wai Kuan, Julia (3C)

On 4th March, Wing Lung students had the annual Round-the-Campus Race in our school. We celebrated Wing Lung 20th Anniversary with a beautiful birthday cake which had a 20th Anniversary picture created by our students. The hanging decorations of the 20th Anniversary in the school hall were awesome and stylish.

On that day, students ran around the school once and around Tai Hing Garden three times. If you were in the first 40 students to finish the race, you could have a pear! The top 10 students would have a certificate and a medal. And this time, the medals were specially designed for the 20th Anniversary.

Julia's comment

I think the Round-the-Campus Race is meaningful. It is because this year is the 20th Anniversary of Wing Lung. I ran with persistence and great effort. The medal is splendid. And I want to thank all the teachers because they have spent a lot of time preparing these wonderful events!

English Week --- POP English

By Lai Hoi Yan (5A) and Cheung Hei Wai, Agatha (4A)

The English week this year was almost perfect. We had a lot of activities in this week. What is your favourite activity? Let's have a total recall. On the first day of the English Week, we had a lot of food to eat. For example, we had popcorn made by Mr. Allan and Ms. Tai and that was really tasty. And there were a lot of games to play and many special gifts. We did have a lot of games. Did you play the tongue twister, Headband guessing game and the I-pad Johnny English app? Could you finish in time? Were the English games very interesting and unforgettable? Apart from games, Wing Lung Voice is the must-watch in the English Week. It was our 6th Wing Lung Voice this year. All the contestants sang so well. I really loved it. The band was perfect. For those who like playing with apps, this year we had the tablet games for S.2 & S.3 students. How attentive they were when they had to gain marks for their class!

I hope you will enjoy the English week next year too! See you next year!

S.1 Super TV

Festive Activities -- Let's Celebrate!!!

By Lai Wing Yan (3B) and Cheung Wai Yan (3D)

Oct 19, 20 & 22 --- Movie Show 1 – Avengers 2

Avengers 2- Age of Ultron is an exciting movie. It is about Tony Stark and Bruce Banner trying to jump-start a dormant peacekeeping program called Ultron, but things go wrong

27 Nov --- Thanksgiving Day – Eating Turkey together

Every year, it has become the tradition to celebrate Thanksgiving Day at the Englishland and students eat turkey with English teachers. In Hong Kong, not every family can afford to buy a turkey and have a celebration. But here at Wing Lung, we can try it together. The turkey was yummy. If you had not attended the activity this year, remember to join it next year. You can also learn the meaning of Thanksgiving Day.

3 Feb --- Flowers for our Lovers

When Valentine's Day was approaching, our teachers taught us how to make flowers using Ferrero Rocher chocolate. It was fun.

We decorated the flowers with ribbons and lace. It was time to express our love to our LOVERS, I mean our mom and dad!

May 4, 5 & 6 --- Movie Show 2 – Inside Out

Inside Out tells different emotions we have. Which character do you like most? Joy, Sadness, Anger or Fear? My favourite character is Joy, though I am like Sadness more. All S.1-3 schoolmates enjoyed watching it while they were having lunch.

9 Dec --- Christmas – Making Gingerbread men

Christmas is a festival in which we can have lots of food to eat and receive gifts from parents and friends. Before Christmas, we made gingerbread men with our English teachers and also Ms. Kong in Englishland. Teachers really baked the gingerbread men for us. They taught us how to decorate the gingerbread men with coloured icing and M&Ms. The gingerbread men we made look pretty, right?

16 Mar --- Easter Egg Hunt (Board Game)

That day, we played board games in Englishland. It was a new board game designed by our English teachers. It was fun and everyone of us got a Kinder Surprise Egg at the end of the game.

Interview Mr. Jo, the patient

By Choy Tak Hei Curtis (2C) and Kong Cheuk Hei (2B)

Mr. Jo is one of the English teachers in our school. He has been teaching English for 30 years. He is friendly and kind, a lot of students like him because of his entertaining teaching style.

Unluckily, Mr. Jo was injured in the dodge ball game which was held in the 20th anniversary celebration. Now, he still cannot come back to school, and we will probably not see him until the next semester (of course, you can visit him...but Fanling, forget it!). Here is our interview over the phone.

Q: How did you feel when you got hurt?

A: It wasn't really painful. I thought it was something minor, not serious. Then the next day, after seeing a doctor, I knew it was a big problem and I had to take a long leave.

Q: How do you feel now?

A: During the first week, I was very upset because I had to stay in the hospital. I was also worried because it was the first operation in my life. I feel better now. I have accepted my situation and try to do what I can do now."

Q: How do you spend your time during your sick leave?

A: I spent a lot of time reading, reading different kinds of books as I have more free time now. I watch a bit more TV now, mainly movies and animal channels. Of course, I have to see the doctor weekly.

Q: Do you miss school?

A: Oh my goodness, yes I miss school a lot. I was born for teaching. I miss my colleagues and students, old and new. I miss them a lot.

Q: What will you do when you can come back to school?

A: I will enjoy it much more than before, trying to teach better and value my remaining years in teaching. I will cherish my students and try my best to walk with them.

J & K

By Wun Jean (2C) and Leung Wing Yan (2D)

Here is J-pop corner!

I am going to introduce some pop stars in Japan to you. If you don't like J-pop, please ignore this article and read the next page.

First, I will introduce an idol group called 'Arashi', which is formed under Johnny's Entertainment talent agency. The members of Arashi are Ohno Satoshi, Sakurai Sho, Aiba Masaki, Ninomiya Kazunari, and Matsumoto Jun. They made their CD debut by releasing the single "Arashi" on November 3, 1999. Besides singing songs, Arashi have taken part in TV programmes too, such as VS Arashi, Arashi ni shiyagare. I like Ohno Satoshi in Arashi most as he is good at singing! (but others are good too). Next, I am going to

introduce Kyary Pamyu Pamyu. She is a Japanese fashion model and singer. Kyary is well-known for her 2011 single, "PonPonPon", which made Japan's top ten. She is very interested in a comic called 'Crayon Shin-chan'; she has even sung the theme song of Crayon Shin-chan!

If you really don't like J-pop...never mind, *here is the K-pop corner~*

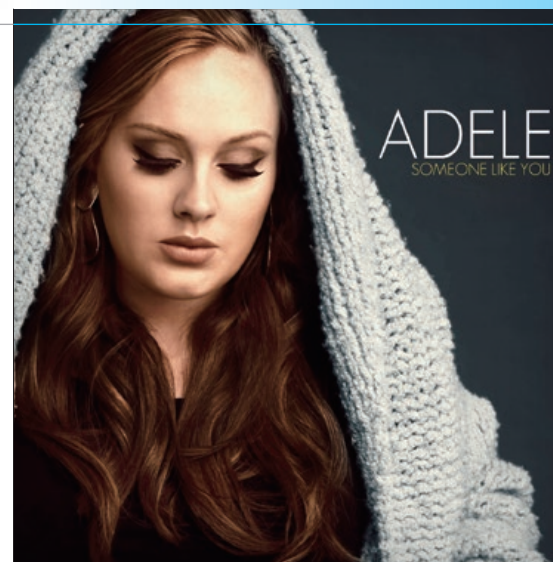

Today, I'm going to introduce a famous South Korean variety show. It is named RUNNING MAN(RM). It is a forming part of SBS's Good Sunday lineup. It was first aired on July 11 2010.

There are seven members now: Kang Gary, Song-Ji-Hyo, Lee-Kwang-Soo, Yoo-Jae-Suk, Ji-Seok-Jin, Kim-Jong-Kook, Haha

Running Man has a lot of couples and siblings(only in the show). In my opinion, my favorite couple is named "Mong Kwang Siblings." They are Song-Ji-Hyo and Lee-Kwang-Soo, the funniest couple because when Lee-Kwang-Soo does some stupid things, Song-Ji-Hyo will turn her mode to Bad-Ji-Hyo and always fight with Lee-Kwang-Soo. They are hilarious.

Then, my role model is Yoo-Jae-Suk in RM. He is a great MC in South Korea because he has won a lot of MC awards in different awards presentation ceremonies. He does not smoke, take drugs or drink alcohol, a pop-star with zero scandal. Also, he is nice to fans and always takes care of them. He has become a very famous star in the whole world.

To conclude, Running Man is a famous variety show in South Korea and many different places. Hope your can learn more about Running Man in this article and enjoy the show more.

Adele – Someone Like You

By Chan Cheuk Ying (4C)

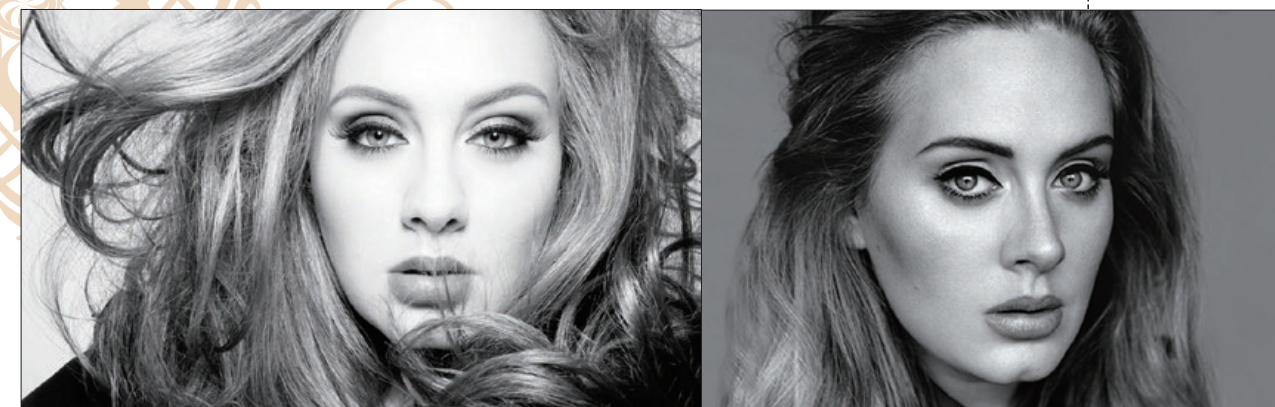

Adele Laurie Blue Adkins, also known as Adele, a 25-year old superstar. She is a phenomenon English singer and songwriter. She sings blues, R&B and pop music. She started her career at the age of 19; she caught people's attention by her beautiful voice at that time, but it wasn't a huge success of hers. In 2011, she released her second studio album, "21" and it was a great hit. She is well known for songs like "Someone like you", "Rolling in the deep". She won 6 Grammy Awards with her "21" album, which is a big deal for a singer. Her success led her to a new level of her career.

Adele wrote a lot of songs for her albums. For example, "Someone like you" is a song about Adele and her ex-boyfriend; it's about her heartbroken relationship. So, this song is very special to Adele and it's one of the most popular songs of hers.

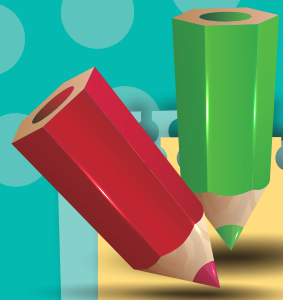

In 2014, Adele wrote and performed "Skyfall" for the James Bond film. It has came 2 years after her "21" album. And again this amazing song won everyone's heart. And Adele could be seen more often on the TV or from the radio.

In 2015, Adele released her third album "25" on the 20th November, 2015. And her lead single from the album, "Hello" was released on 23th October, 2015. "Hello" has become the highlight of her career so far. The music video of "Hello" was viewed over 27.7 million times on YouTube in its first 24 hours, breaking the record for the most views in a day and the shortest time to reach 1 billion YouTube views (88 days).

Adele is a talented singer with a unique voice. I love her so much; her music is always an inspiration to me. I'm sure most of you must have heard of her music; if you haven't yet, I highly recommend you to try and enjoy. You won't regret it!

Message from Mr. Allan

To All Our Dear Helpers, Active English Officers and English Achievers

One of the greatest joys of teaching is building relationships with colleagues or students. In the case of this group with all of you in preparing our English Morning Assembly every Thursday and English activities, I've made some great friendships with students I'd never met before.

Understandably, when we first met way back in September, everyone was a little shy and apprehensive. But with the hard work of the Speech Festival, and continuous commitment to the English Morning Assembly, we have gotten to know, appreciate and respect each other. These are three great tenets of education; Knowledge, Respect and Appreciation.

It has been my pleasure to work with all our student members this year and I greatly look forward to seeing you all again next year.

To All Wing Lung Students

A simple message:

Don't be shy! I think most of you understand that I'm not a very scary teacher – so just relax and enjoy your work. Mistakes? There's no such thing as mistakes in my lessons. Everybody is EXCELLENT!!

Best Wishes

Mr Allan

Sharing of Characters

Ada - Lui Ching Ching (3C)

I'm glad to have a chance to participate in the musical this year. During rehearsals, our imagination was stimulated and we learnt how to express our emotions through all theatre games and exercises. Drama lessons were also interesting. Everyone of us was excited and had so much fun in them.

This is the first time that I have joined a musical. At first, I actually did not know what to do and how to act. But I know I will do better with all the advice given by our director and teachers.

Miss Chan - Pun Yuen Nam (3C)

When we first had the rehearsals, I started to look at the trees outside our school. I can't imagine what would happen if all the lovely trees were chopped off. All these trees are like our friends. They beautify our campus by adding colours to the surrounding of our school. I started to appreciate their presence and God's creation. Environmental protection is important to everyone of us and I want to pass this message to our next generation.

Semantha - Tina Yeung Hoi Suet (5E)

I'm now feeling so excited and looking forward for the coming of our musical performance. I'm also really glad that I can participate in it. During the training period, we spent a lot of time practising singing skills, dialogues and movement. 'Practice makes perfect!' We tried our best to strive for our same aspiration - perform our best in the show with no regret! As a S.5 student, I am fortunate that this is the very first time for me to be one of the main cast though it will also be the last time for me to stand on the stage in a musical. Sometimes I wonder if I will be capable to be a successful actress in a musical. But I have a lot of support

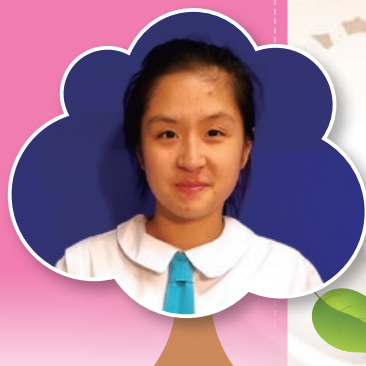

from my friends and teachers as my motivation. Every time I practice, I know my acting and singing skills are improving. I have an opportunity to experience more.

Our director and teachers have given us a lot of patience and make their great efforts to create a good learning environment for us. They teach us a lot of useful acting skills, movement, facial expressions or even the right attitude a performer should have. I hope we can show you all we have learnt and hope you will enjoy our show.

Alice - Leung Nga Wing (3D)

I joined this musical because I was very interested in the character I play, a student who helped the school to be green. It is fun to explore a new character and it is also fruitful as I can improve my English. I am looking forward to our show and I promise I will do my best.

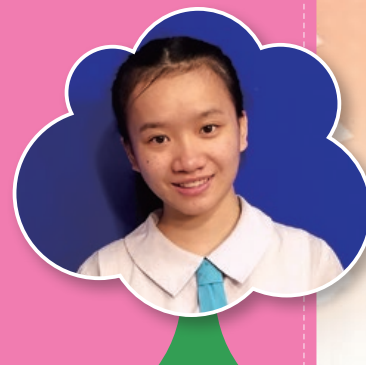

Laura - Ho Yunchi (5C)

As a F.5 student, I must cherish this chance to perform in a musical since it will be the last time for me to take part in a performance in my secondary school life. I am not sure if I will still have the chance to perform in a musical after leaving school. Therefore, I will show you my best in the show.

I can sing, but I'm not good at it. I can dance, but I'm not familiar with it. I can act, but it's hard to be the best. The only thing I could say is that 'There is no best, only better'. There won't be any regrets if I do as well as I can. This musical puts a perfect 'full stop' on my performance in school life.

The theme of this story is related to the hottest topic around the world - environmental-protection. All of us are affected by our environment. As a student from a green school, I'm responsible for raising all of your awareness in order to give a helping hand to our world. Make it a better place is not only the responsibilities and obligations for me, but also for us.

Our performance will not be perfect, but we will try our best. Now, it is time to give us your loudest applause and biggest support. Let's start, shall we? Hope you will enjoy the show!

Michael - Yip Ho Yeung (5A)

This is not my first time to be on stage performing in a musical. In the past three years, I gained some experience for being an actor in school musicals. But I was still nervous about this performance because there were many challenges for us. This is an original musical and it is in English. We did not have enough time to practice. Therefore, we needed to strike a good balance between study and rehearsals. Although it is a great challenge, I am still very excited that I can be one of the main characters. I will practise more and do my best. I hope you'll all enjoy our music and performance!

Nathan - Lai Ho Kuen (5E)

This is the first time I have had a chance to take part in an English musical and I will be one of the main cast. I am really looking forward to the performance. At the same time, I am worried about it too because I need to face the greatest barrier - English. But I will try my best to overcome this because I want to know how far I can reach. I enjoy all training sessions because the director and teachers made good use of different games to teach us. We never feel bored and we learn a lot of knowledge and skills about musicals.

I would like to thank our director and teachers for their valuable advice and patience. I hope that I can overcome my limitation and have a great performance in "One Night, Just Down the Road..."

Synopsis

Early one morning, some students found out that several trees in front of the school were cut down, which aroused concern among students. This incident also triggered the memories of a group of alumni of their alma mater and the community. Michael, a Form Six student, together with several schoolmates and alumni, decided to organize activities to let students and the public know and care more about their community. But the issue becomes complicated owing to the heavy academic workload and the different opinions coming from teachers, students and parents. Can Michael and his schoolmates achieve their goal and make a difference in their school?

Message from the Principal

Principal Cheng

"Music is a moral law. It gives soul to the universe, wings to the mind, flight to the imagination, a charm to sadness, gaiety and life to everything; It is the essence of order and lends to all that is good, just, and beautiful."

— Plato

Under our almighty God's leadership and guidance throughout these 20 years, Wing Lung has been growing, striving and sparkling with the beauty, glory and love of our Heavenly Father. Our Wing Lung family is proud of being the blessed, beloved and well-developed establishment of our Lord.

The craftsmanship of our God has been the source of inspiration to all Wing Lung leaders, including me, in cultivating this big family to become versatile, multi-cultural and environmentally conscious global citizens with life-long passion for truth, goodness and beauty.

To celebrate Wing Lung's 20th anniversary, we have organized the most fabulous and phenomenal musical performance – "One Night, Just about the Road..." to glorify and honour the guidance and fraternal love of our Heavenly Father. Through bringing this musical alive, all our teachers and students demonstrate their God-given musical, vocal and acting talents to express our wholehearted thanks to our Lord. May Wing Lung continue to shine with the glory, guidance and blessing of God.

"And let the beauty of the LORD our God be upon us; and establish thou the work of our hands upon us; yea, the work of our hands establish thou it."

(Psalms 90:17)

Director's Words

Mr Victor Chan

Time really flies. Ten years ago, I had the opportunity to direct a musical for Baptist Wing Lung Secondary School; now I can have the honor once again after a decade. Ten years is not a short span; many things can happen, some good, some bad; some remembered, some forgotten. But what we can always savor is, I believe, the love among us. In this place, you may have had poignant moments of tears and laughter with your friends. You can recall each face before you easily, for you love not only the place, but also those who share the walk with you. Live here and now, seizing every single moment to pass this love down. A good piece of art is not just the form; far more important is the audience can feel the soul of the work, which carries the sentiments of the author or artist, his different experiences and feelings. My students, let your feelings flow, let everyone out there in the hall feel or experience the love in our campus, the precious love we consider most worth sharing.

Message from the Musical Director

Ms Lydia Pang

Every year, I enjoy a lot in witnessing students striving their best in training sessions and rehearsals of the musical production. At first, we encountered a lot of difficulties, however, with our great team spirit, we could finally overcome the difficulties and achieve our goal together. I have to express my gratitude especially to Billy Sy for his great effort in writing a script highlighting one of our core school values, being good stewards of the Earth. Hope all students will seize every chance and gain fruitful experiences in learning. May these values be instilled in the heart of every 'WingLunger'.
